STRT-MKR-BLUE-REF-W/PAD	Dot Approved Hydrant Blue Street Marker With Adhesive Pad on bottom
STRT-MKR-BLUE-REF	Dot Approved Hydrant Blue Street Marker Non Adhesive (requires epoxy)
STRT-MKR-AMBER-REF	Dot Approved Amber Street Marker Non Adhesive (requires epoxy)
STRT-MKR-WHITE-REF	Dot Approved White Street Marker Non Adhesive (requires epoxy)
STRT-MKR-BUTYL-PAD	Individual Adhesive Pads that can be placed on each marker instead of using epoxy
STRT-MKR-EPOXY	2 part Epoxy 1 part resin, 1 part hardener

OTHER VARIOUS INFORMATION

Photo 1&2	<p>AA (All Acrylic)</p> <p>The AA is a reflective pavement marker designed to offer maximum strength, high reflectivity and enhanced life cycle. A rib and fish hook design makes for maximum adherence between the shell and fill material. A protective brow protects the top area of the lens from deterioration</p>
Photo 3	<p>Round Shoulder</p> <p>The Round Shoulder is a standard-type reflective pavement marker designed to offer maximum strength, high reflectivity and lower tire impact. It's brightly colored housing provides high visibility for daytime delineation. The Round Shoulder has an improved rounded shape that reduces tire impact and increases its useful life</p>
Photo 4	<p>AA ARC II</p> <p>The ARC II is reflective pavement marker designed to offer maximum strength, high reflectivity and maximum life cycle. A rib and fish hook design makes for maximum adherence between the shell and fill material. A protective brow protects the top area of the lens from deterioration. An abrasion resistant coating is chemically bonded to the lens surface to protect it from the grinding action of dirt, sand and contact from traffic volume.</p>
